1 KDD Cup 2003 reports: A data cleaning solution by Perl scripts for the KDD Cup 2003 task 2
Martine Cadot, Joseph di Martino
December 2003 **ACM SIGKDD Explorations Newsletter**, Volume 5 Issue 2
Full text available: 📄 pdf(56.91 KB)   Additional Information: full citation, abstract

> In this paper, we present our solution for the KDD CUP 2003 task 2 competition. Our approach is based on a data cleaning methodology using Perl scripts. These scripts contain regular expression for automatically extracting relevant information from the 35472 LaTeX texts. These expressions were optimized by statistical investigations on the texts. Our solution has permitted us to obtain 144,087 associations.
